INSIDE KNOWLEDGE

SOFTWARE
ARCHITECT

@ngrx/entity and @ngrx/schematics

- ng add @ngrx/entity
- ng add @ngrx/schematics
- ng g module passengers
- ng g entity Passenger --module passengers.module.ts

Idea

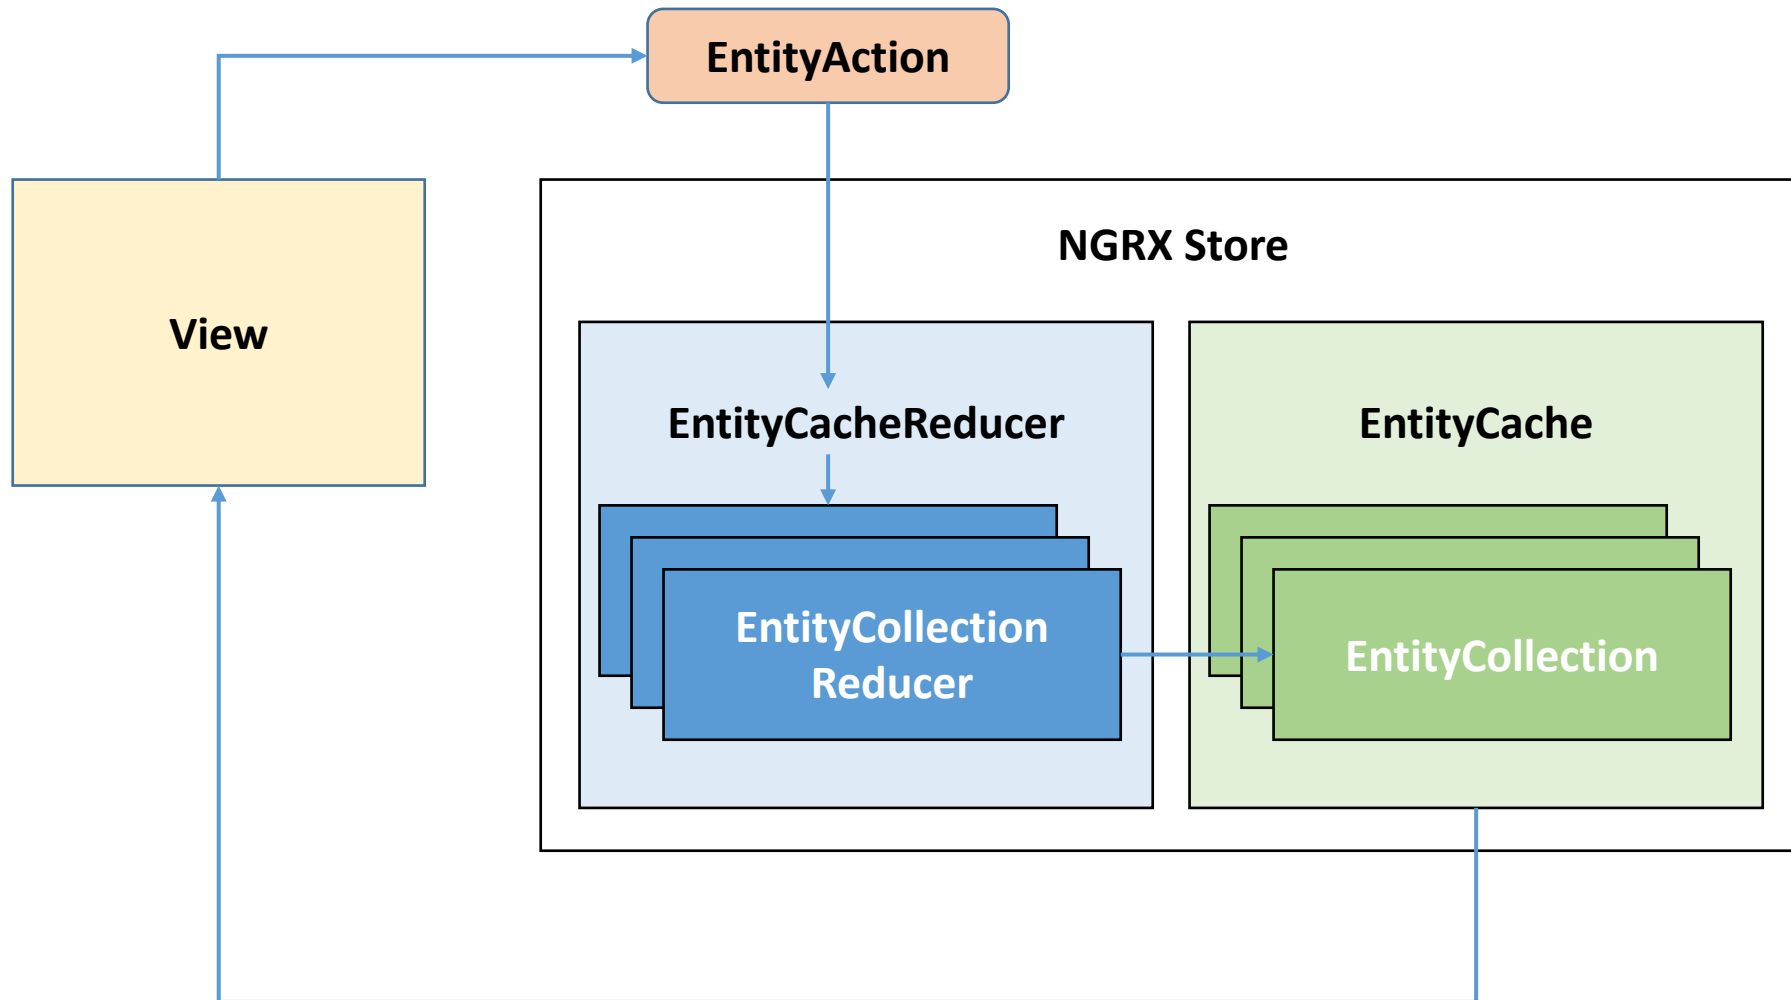

- Managing entities
- Generic solution
- Convention over configuration

Steps

ANGULAR
ARCHITECTS
INSIDE KNOWLEDGE

SOFTWARE
ARCHITECT

Configuration

```
const entityMetadata: EntityMetadataMap = {  
  Passenger: {  
    selectId: (p: Passenger) => p.id // == Default  
  }  
};
```

SOFTWARE
ARCHITECT

Generic Service

```
@Injectable({ providedIn: 'root' })
export class PassengerService
    extends EntityCollectionServiceBase<Passenger> {

    constructor(serviceElementsFactory:
        EntityCollectionServiceElementsFactory)
    {
        super('Passenger', serviceElementsFactory);
    }

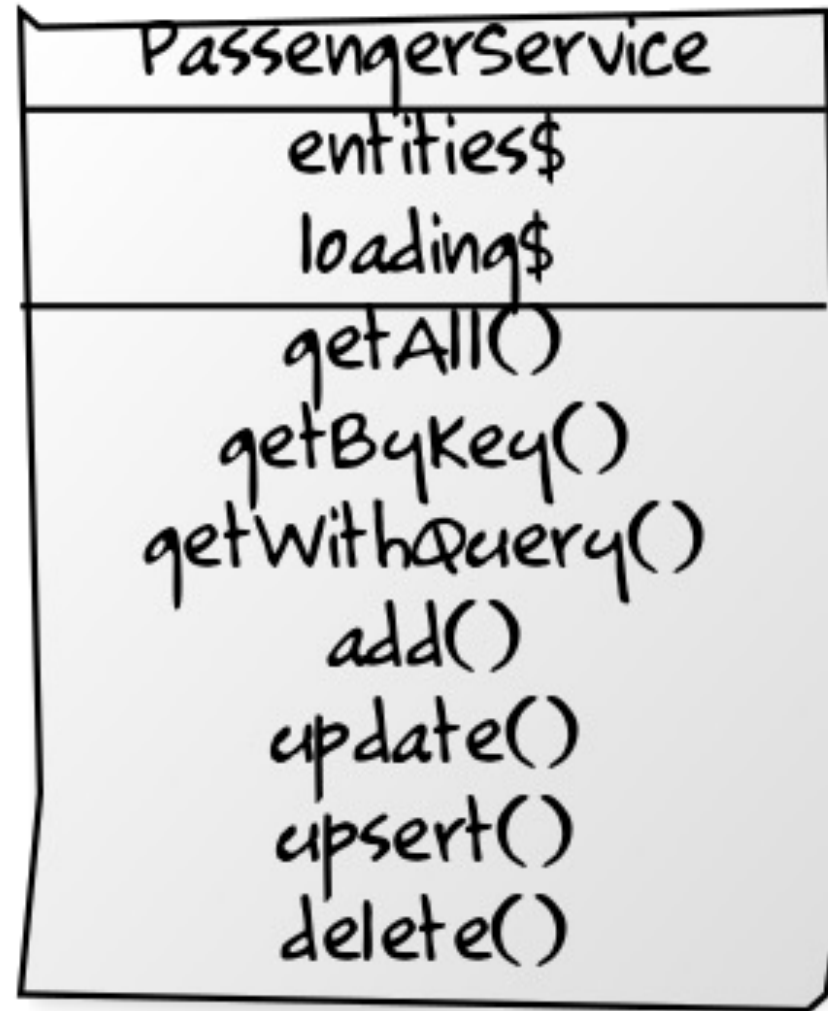

}
```
